### PROSPECTUS

DAYTON EMPIRE. (DAILY AND WHEKLY.)

Friends of Constitutional Liberty, the Days. Enriss, once more greets you, and takes a pla along with the other Democratic papers of the Stat as an advocate of your principles and defender

as an edvoise of your expects at your hands a warm and friendly reception.

An important compalga in before us, fraught with more of good or evil than any which has ever preceded it. The lafe of the Nation and the Liberties of the ed it. The lafe of the Nation and the Liberties of the passive are at stake. The coming meants are program with mighty erents, and every man should be fully "posted" on the current issues, so as to be able to perform his day as becomes a freeman. The greatly affected thereby, and have fallen off five hundred thousand dollars in New tattle between Centralized Power and Individual Liberty—Democracy and Despotism—is new being fought. If our people are true to themselves, the Constitution and the sublime teachings of our patroit forcedibers, the contest caught is doubtful. The forceafters, the contest cannot be doubtful. The receive the and the loan great mission of the Democratic party, which has ever certificates in payment of the loan. Govstoods the bulwark of the Union and the champion of the Constitution, renders its entire unity and bold attitude, is this hour of national perit, a matter or vital concern. The pending issue is not less for the maintenance of a united country that for the perpetuation of Demostratic principles as expounded by Jeffician and Jackson. The most momentous results hand upon the issue. The post is dead, save in its essents of experience. The Constitution, if preserved, as the beacon-light that will quate us to a point o safety from the present strm and coulist; if transpled under fout and destroyed, we are forever lost in darkness, gloom, marchy. It is the mission of the ir work until their dependent of the period determined which gave us a Union. To that party slone may conservative citizens look for rober and a happy return to the proud days of the English, when presentment stood as the bulwark of the Union and the champs servative citizens look for rocks and a mapped to the proud days of the Empthin, when peece smale and prosperty regned throughout the land. It is maquestionably the true Union party of the present day. The life-record of our glorous Union and the sanctity of the Constitution fully axess this declaration, as under its prodent sway and judicious government the Union was made a blessing and the Constitution a sa-dred bond of equality and national happiness. Turn whither we may, we can see moray of hope for the lature salvation of currentary—no "how of promise" sare in and through the trimoph of the great Constiprinciples and devoted unatterably to the Union and drivers have returned to work, an advance perpetuity of this once happy and prosperous, but having been given them.

we said the patronage of all the former triesds of We ask the patronage of all the former intents of the patronage of all the former intents of the patronage of all the former as desirs to take a sound and radiable Democratic retreat. It is the determination of the Company to do a strict cash business, and no paper will be sent unless paid form advance. This is a rule from which they will not vary. All will be dealt with slike.

A large number of New York workingmen, representing several branches of industry, still stand out for higher rates of wages, and seem determined to withhold their work until their demand is granted, even though positive want be the penalty of their resolute determination. The machinists, cigar-makers, confectioners, iroumongers, stage-drivers, shoemakers, blacksmiths, tinsmiths, carpenters, and representatives of other trades have held public meetings exciting more or less sympathy. The meeting of the working girls revealed to a great extent the destitution and suffering occasioned by the low rate of wages and the high cost of living. The carhas also commenced among some of the
